Bachelor`s degree 2006-2010

National Polytechnic University of Armenia

Computer Systems and Informatics Department

EXPERIENCE

Front-End Developer 01.08.2023-present

Nodo | Yerevan, Armenia

- Leveraging TypeScript and React for type-safe and scalable front-end development.
- Automated versioning ensures systematic releases following semantic versioning principles.
- Efficient state management is achieved with Redux, ensuring a predictable and organized data flow.
- Integrated bank verification enhances payment security and compliance.
- Secure payment transactions are facilitated through the Stripe.js library, offering user-friendly payment options.
- Yup and React-Form ensure accurate and reliable data validation for user inputs.

Front-End Developer 01.06.2021-20.08.2023

SoftConstruct | Yerevan, Armenia

- As a front-end developer, participated in the development of reliable financial projects for banking systems, paying special attention to the creation of an integrated banking program for both bank employees and online banking users. Using front-end technologies to create secure, intuitive, and feature-rich interfaces that improve the efficiency and user experience of financial transactions.
